

Floris van der Waals

Actor

My heart and passion lies with acting. Therefore, this is also my dream. I love watching movies and shows like Harry Potter and always thought of how cool it would be to bring this to real life. Putting my heart in passion into these characters and tell these amazing stories to the people is what makes me happy. I am very passionate about reading books as well.

I love working on my skills, improving them and working together with other actors to tell these amazing stories.

I always look for ways how I can challenge me and get the best out of myself.
